PREFACE

The purpose of this book is to provide a comprehensive survey of the history of the United States from the time of the first European settlement to the present. It is intended for use as a text book in the study of American history, and also as a reference work for the general reader. The book is divided into two main parts, the first of which deals with the period from the first European settlement to the American Revolution, and the second with the period from the American Revolution to the present. Each part is further divided into chapters, and each chapter is subdivided into sections. The book is written in a clear and concise style, and is intended to be both informative and interesting.

PART I

1. The first European settlement in North America. 2. The growth of the colonies. 3. The American Revolution. 4. The early years of the new nation.

PART II

5. The expansion of the United States. 6. The Civil War. 7. Reconstruction. 8. The Gilded Age. 9. The Progressive Era. 10. The First World War. 11. The Second World War. 12. The Cold War. 13. The present day.
